

Student Satisfaction Survey 2021-2022

Student Satisfaction Survey for the academic year 2021-2022 was conducted Online with the help of specially designed questioner consisting 14 questions reflecting various aspects of Teaching, Learning and Evaluation. There was also scope provided for the students to express their opinion and suggestions for the improvement of learning experience in the institution. Keeping demographic distribution, rural and tribal background and for better understanding of the questions in the questioner the questions in this survey were presented in English and Marathi in order to generate more honest responses.

The survey was conducted through online platform using google forms consisting of 14 questions of which 14 were objective type measuring satisfaction in different aspects of teaching learning and evaluation. The link of the survey was displayed on the college website and also shared among different students whatsapp groups. Teacher-Parents created awareness and motivated students to take part in the survey.

The questioner in the survey was divided in three parts as below:

PART-I	General Information (Name, Faculty, Class, etc)
PART-II	14 Objective Question Regarding Teaching Learning and Evaluation

For the academic year 2020-2021 a total of 1213 students from Arts, Science and Commerce faculties participated in the survey .The analysis of these two parts and action taken is presented in this report.

PART-I GENERAL INFORMATION

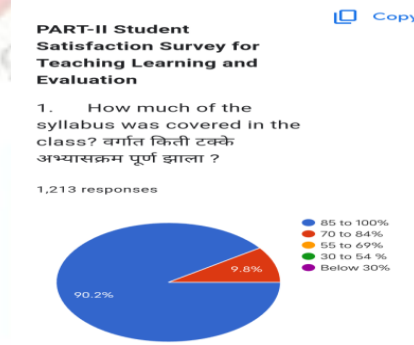

A total of 1213 students from Humanities, Science and Technology and Commerce and Management faculty participated in the survey.

PART-II Student Satisfaction Survey for Teaching Learning and Evaluation

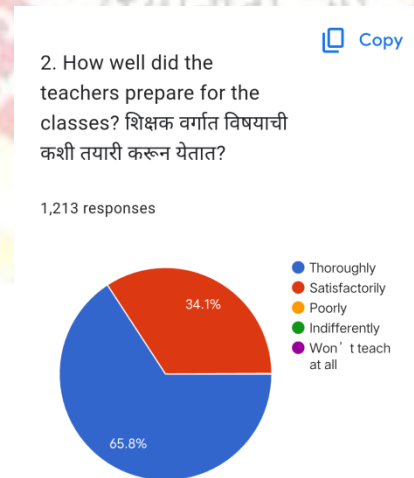

In part II of the Student Satisfaction Survey 14 questions with multiple choice based on the guidelines of NAAC reflecting the Teaching Learning Evaluation were presented.

The question wise response received are presented below,

The first question highlights the percentage of syllabus completed. The responses Indicates that more than 90% syllabus have been completed.

In the second question which deals with preparedness of the teacher for the classes, maximum student responded that teacher is well prepared for the class.

Communication is an integral part of teaching learning and evaluation. Communication being a two way process is not only responsible for explaining

6. Was your performance in assignments discussed with you?

तुमच्या कामगिरीची तुमच्याबरोबर चर्चा केली जाते का ?

1,213 responses

One of the major roles of the teacher in the evaluation process is to convey the performance of the student in the internal assessments. This helps the students to self-analyses their learning and makes proper adjustments for future progress in the subject. In this survey a question for this aspect was included and response received

indicates that maximum students are satisfied with the feedback and discussion of their test performance by the teacher.

Growth opportunities in form of academics, curricular and co-curricular are also important for any student to make a successful carrier. This aspect has an important role in all of Teaching Learning and Evaluation Process. Therefore student's satisfaction for multiple growth opportunities in the institute was measured in the survey. The response indicates most of the students strongly believe that multiple growth opportunities are available for them in the institute.

Student awareness about themselves, course and the subjects they have opted is very important in the learning process. If students are not aware of the competencies required, course and program outcome, than that type of learning becomes useless and meaningless. A question about teacher involvement in creating awareness about course and program outcome was included in the survey. Response indicates the teachers actively creates awareness among students about the course opted and inform students about expected competence, course outcome and program outcome.

YouTube, Google Forms, and Google Classroom etc. The percentage of teachers using these facilities is 100%.

12. What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching.

कितनी टक्के शिक्षक शिकवताना एलसीडी प्रोजेक्टर, मल्टीमीडिया चा वापर करतात ?

1,213 responses

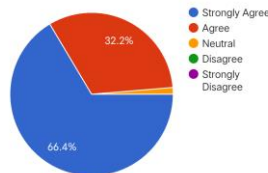

With the changing job scenario around the world it has become important for the education institute to provide its students with better skills which will help them to utilize their full potential and adopt to the changes and challenges in the job market. For this the teachers and the administration of the college is expected to provide training in employability, soft skills, and life skills to its students which will help them with establishing a successful career. In this survey maximum students are satisfied with the training and efforts by the teachers and administration to provide them with employability skills to make a successful career.

14. The overall quality of teaching-learning process in your institute is very good.

आपल्या महाविद्यालयात अध्ययन, अध्यापन पद्धती चांगली आहे ?

1,213 responses

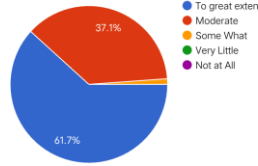

With continues changes in the education system the teaching learning and evaluation process has become the backbone of an education institution. An effective teaching learning process helps students in encouraging good study habits, in increasing motivation and in developing abilities and skills, in knowing the results of

progress and in getting appropriate feedback. For this it is observed that students strongly agreed that the teaching learning process in the institute is good and satisfying.

13. Efforts are made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work.

महाविद्यालय शिक्षक तुम्हाला रोजगार प्राप्तीसाठी व्यवहार कुशलता, जीवन कौशल्य व रोजगार योग्यता कौशल्य समजावतात ?
1,213 responses

Teachers and administration of our institute are always open for suggestions for improvement by the students and other stakeholders. For the last question at the end of the Student Satisfaction Survey student were asked to provide with 3 suggestion/opinion/expressions/views for improvement of teaching experience at the institute. The responses received for this question were analyzed separately by the NAAC Criterion II members without disclosing the identity of the students. As the response were of qualitative in nature, they were distributed in following manners,

Positive (+)	The suggestions which shows positive reaction and satisfaction to the teaching learning and Evaluation
Negative (-)	The suggestions which shows some short coming or scope for improvement in the present teaching learning & Evaluation process
Neutral (N)	The suggestions which are indifferent or unrelated to teaching learning and Evaluation process

On the basis of the description it was observed that there are very few suggestions which ask for any major changes in the present teaching learning and evaluation process.

The suggestions/options/expressions received from the student students are clubbed together in following five general heads:

Field visits / Educational Tours / Industrial visits/ Excursion Tours.

Value Added Courses / Skill Based Courses.
